ISSUE - 2

July 2022

EDITOR'S MESSAGE

It is indeed matter of great pride and pleasure that, with the commencement of the academic year 2022-23, our first issue of E-Newsletter 'Ujval' has been launched successfully on 16th June 2022. On behalf of the E-Newsletter committee, I hereby express my sincere gratitude to all our patrons, stakeholders, contributors and well-wishers, especially principal Dr Mehul Desai, who has been our torchbearer.

The second issue of E-Newsletter Ujval is accompanied by yet another milestone for our institute - our college celebrates 20 years of glorious journey, educating and nurturing the lives of thousands of students who are contributing to the society and the nation in their own ways and capacities.

The memories and experiences of this voyage are many and noteworthy, which shall be recollected, reflected and reported in the forthcoming events at our institute.

I humbly appeal all the stakeholders of our institute to make sincere efforts in order to take the name and fame of our institute to greater heights. Further, let us all collectively contribute to the making of a great nation.

Jai Hind!

'A GIFT FOR ARTISTS'

By Tulsi D. Jha

A very new world of art whose name is 'kala-kaushlya dhara' is really an incredible gift for artists who wants to recall their art of that innocent childhood, the art which got blurred with the definitions of world, the art which left us with a perfect peaceful sparkling smile, the art which give us courage to fight with our fears, the art of silence on face and sound in creativity. Yah! That world of art which only give us pleasures.

So, really! I am very much thankful to Udhna academy for giving us a wonderful opportunity to again wear those invisible wings of art by the active participation in the themes of 'kala-kaushlya dhara' which includes the activities like:

- POSTER MAKING COMPETITION which shows us an incredible way to see the complex issues of society.
- BEST OUT OF WASTE which shows us that, not every waste is a waste; it only needs a sympathetic artistic skill to pour out that waste into a wonderful scenario of best.
- CARD MAKING which welcomes the world of imagination by spreading the creativity on the grounds of paper.
- Handicraft making which creates a new world of glory by our own vision of creating the story of handlooms.
- Hair style making is again a new vision to see a beauty in different shades of glorious look.

So, thanks a lot 'kala-kaushlya dhara' for giving the artists a very incredible gift of art.
